Themed issue: Organic Bioelectronics

ISSN 2050-750X

REVIEW ARTICLE

Takashi D. Y. Kozai and Alberto L. Vazquez

Photoelectric artefact from optogenetics and imaging on microelectrodes and bioelectronics: new challenges and opportunities

Materials Horizons

The new journal for first reports of exceptional significance across the breadth of materials research

Editorial Board Chair:

Seth Marder (Georgia Institute of Technology, USA)

- Free online access to all 2014 and 2015 content
- Simple online submission
- Speedy peer review and publication process

 Materials-Horizons

 @MaterHoriz

The background of the lower half of the page features a complex, abstract illustration. It includes a grid of glowing purple lines, a series of overlapping spheres in shades of gold, silver, and purple, and a large, curved purple shape that frames the right side of the image. The overall aesthetic is futuristic and scientific.
